

IN THE CLAIMS:

Please cancel Claims 1 to 36, and add new Claims 37 to 54 as shown below. The claims, as pending in the subject application, now read as follows:

37. (New) A printer comprising:

a receiving unit for receiving an electronic mail including a setting file for setting a format and a print file,  
wherein the setting file includes information to designate the print file; and  
a printing unit for printing the print file, designated by the setting file, in the format set by the setting file.

38. (New) A printer according to Claim 37, wherein the print file includes a plurality of print files.

39. (New) A printer according to Claim 37, wherein the setting file designates the print file to be printed by a name of the print file.

40. (New) A printer according to Claim 37, wherein the setting file designates the print file to be printed by an order of the print file.

41. (New) A printer according to Claim 37, wherein the setting file includes a style sheet and the print file includes HTML data.

42. (New) A printer according to Claim 37, wherein the electronic mail includes a message body and the message body includes information to designate the setting file and the print file.

43. (New) A printing method comprising:  
a receiving step for receiving an electronic mail including a setting file for setting a format and a print file,  
wherein the setting file includes information to designate the print file; and  
a printing step for printing the print file, designated by the setting file, in the format set by the setting file.

44. (New) A printing method according to Claim 43, wherein the print file includes a plurality of print files.

45. (New) A printing method according to Claim 43, wherein the setting file designates the print file to be printed by a name of the print file.

46. (New) A printing method according to Claim 43, wherein the setting file designates the print file to be printed by an order of the print file.

47. (New) A printing method according to Claim 43, wherein the setting file includes a style sheet and the print file includes HTML data.

48. (New) A printing method according to Claim 43, wherein the electronic mail includes a message body and the message body includes information to designate the setting file and the print file.

49. (New) A computer program stored on a computer-readable medium, the computer program comprising:

a receiving step for receiving an electronic mail including a setting file for setting a format and a print file,

wherein the setting file includes information to designate the print file; and

a printing step for printing the print file, designated by the setting file, in the format set by the setting file.

50. (New) A computer program according to Claim 49, wherein the print file includes a plurality of print files.

51. (New) A computer program according to Claim 49, wherein the setting file designates the print file to be printed by a name of the print file.

52. (New) A computer program according to Claim 49, wherein the setting file designates the print file to be printed by an order of the print file.

53. (New) A computer program according to Claim 49, wherein the setting file includes a style sheet and the print file includes HTML data.

54. (New) A computer program according to Claim 49, wherein the electronic mail includes a message body and the message body includes information to designate the setting file and the print file.
